

HiPak

Efficient LED high bay luminaire

THORN

Saving you time, energy and money

Effortlessly upgrade with new HiPak.

- HiPak offers a simple, direct and cost-effective one-for-one replacement of traditional HID high bay luminaires.
- Efficient LEDs (up to 130 Lm/W) combined with precise lens technology can reduce waste light and in turn energy consumption by up to 50%.
- Classic circular design with innovative lens technology providing the right amount of light exactly where it is needed.
- Available with a wide voltage driver (CE certified from 100V-240V) for global applications.

Retail outlets

With an optional prismatic refractor, HiPak offers a softer lit appearance and attractive aesthetic to make it ideal for refurbishing large retail stores. A choice of four light outputs meet a wide range of ceiling heights and ensure the right amount of light is always provided.

Exhibition Halls

Exhibition halls have high ceiling heights and demand the right amount of lighting on the floor. HiPak is fully equipped to meet these needs with a choice of lumen outputs and the provision of homogeneous lighting. HiPak's optional prismatic refractor ensures the luminaire looks as good as the lighting it provides.

Logistics centres

Transportation areas and the areas where people are working both demand good quality lighting. Taking into consideration high ceiling heights and the need for energy savings across long operating hours, HiPak offers a choice of four light outputs, efficient LEDs and a choice of optics to place light where needed.

Warehouses

HiPak provides good horizontal illumination on surfaces such as forklift controls and bar code scanners while offering good coverage on vertical surfaces, particularly when searching through products amongst storage racks. With a choice of four light outputs to meet the lighting needs for a wide range of ceiling heights as well as easy installation and low maintenance, HiPak is ideal for warehouses of all sizes.

NEW!

Prismatic refractor:

- Softer lit appearance
- Attractive aesthetic
- Ideal for refurbishing large retail stores
- Reduce the glare value at the wide optic down to <math><19\text{ UGR}</math>

Energy saving opportunities

Reduce energy consumption by up to 50% with HiPak.

Replacing traditional HID high bay luminaires with HiPak can reduce energy consumption by up to 50% to reduce both energy bills and carbon emissions.

Reduce energy costs by 50% with HiPak.

Energy Efficiency – Course of overall costs of solution over lifetime:

Scheme details:

100m x 100m room, 9m mounting height, 50/30/20 reflectances designed to meet 200 lux. Old scheme used 110 400W HID luminaires, replaced by 110 25,000lm HiPak.

HiPak lifetime vs other technologies

Energy savings by lumen output.

10 000lm (85W), 15 000 (125W)

- 250W HID replacement:

20 000lm (150W), 25 000lm (200W)

- 400W HID replacement:

Virtually maintenance-free LED lifetime

With a long 70 000-hour lifetime, HiPak eliminates the need for costly and disruptive lamp replacements. The cooling fin housing is carefully designed to allow air through the luminaire. This prevents the components from overheating and ensures optimum performance in harsh industrial environments from -30°C up to +50°C.

HiPak optics

HiPak places light where needed with a choice of two optics.

Wide optic

HiPak's wide beam is suited to larger open areas where light from more than one direction is important. It is also ideal for areas where movement and stacking of boxes occurs without fixed shelving, as well as areas where machinery needs lighting. This includes open retail and industrial production spaces, logistical centres and warehouses.

HiPak LED2000-840 HF WD

Rack optic

HiPak's narrow beam is suited to storage spaces, warehouses or retail environments with lower ceilings and narrow spaces between the racks. These areas include narrow racked rooms where light is needed at the bottom shelf, picking areas in logistics centres and storage at normal and medium ceiling heights (4m to 12m).

HiPak LED2000-840 HF RK

Installation

HiPak is easy to install to save time, energy and money.

Single point suspension

Enables simple point for point replacement of traditional HID high bay luminaires without the cost and inconvenience of additional installation points.

Pre-installed plug and play connectors

Allows rapid installation with no internal wiring.

Mounting hook supplied with Wide optic luminaire

Mounting grid gives a flexible range of mounting options

Optional mounting accessories

Stirrup for wall/ceiling mounting*

Rod for pendant mounting*

Wire suspension
1m/2m/5m

Chain suspension (chain to be ordered separately)

Catenary suspension

*Stirrup and Rod accessories **MUST** be ordered with the **RACK** optic version - to ensure that the luminaire does not rotate once installed.

Product specification

A direct one-for-one replacement of traditional HID high bay luminaires. Saving you time, energy and money.

Application

- Warehouses
- Logistics centres
- Exhibition halls
- Retail

Standards

Light source information

Life time 70 000 hours @ L70 T_a 25°C
10 000lm (85W) / 15 000lm (125W)
20 000lm (150W) / 25 000lm (200W)
Up to 130lm/W
Colour temperature 4000K
CRI 80
McAdams 3

Materials/Finish

Housing: die cast aluminium (RAL 9006)
Lens: polycarbonate
Luminaire is silicon free

Installation/Mounting

All luminaires are suitable for single point suspension and Wide optic version supplied with a mounting hook as standard (chain to be ordered separately: 96502605). Other mounting accessories to be ordered separately: stirrup for wall mounting (96642765 / 96642914), rod suspension for pendant mounting (96642766), wire suspension (96502609) and catenary suspension (96502610). All luminaires are supplied pre-wired with a quick connector plug.

Specification

To specify state:
An IP65 single point suspension LED high bay luminaire with plug and play connection for rapid installation. Available in 10 000lm, 15 000lm, 20 000lm and 25 000lm (L70 70 000hrs), with a choice of rack or wide beam optic. Fixed output (HF) available as standard. DALI is only available on request. As Thorn HiPak.
