

## Arena Symphony

### Innovative LED luminaire with sound absorbing features to minimise sound reverberation in classrooms

- Fully compliant with BB93 (measured for an empty classroom) for optimum classroom performance
- Achieves the acoustic and lighting standards with only 6 fittings in 56m<sup>2</sup> classrooms
- Wide range of control options, including simple ON/OFF, dimming and sensor
- Designed for flexibility offering a choice of infills to adapt the length of the system to match all classroom layouts

Photographs, line drawings and photometric data are representative only. For specific product detail please select an individual product.

96645149

### Material/Finish

Raft: aluminium

Luminaire frame: aluminium, powder coated white as standard (RAL9010)

Acoustic material: rocksilk mineral wool fibre

Optic: acrylic

### Installation/Mounting

Suitable for suspension mounting with 4 suspension wires (supplied). Suspension wires are adjustable in height due to the support on the luminaire with millimetre movements, in 2 directions. This product can be used in a system with added infill panels to fulfil the acoustic requirement. Through wiring and quick connector are also provided to aid a fast installation. Sensor version also available with Master and Slave control.
