

## Durolight

**Anti-vandal luminaires that withstand highly forceful impact while nevertheless operating reliably.**

- Antiligature shape. In the case of Durolight, this means: 1.- Round corners (no sharp edges); 2.- Difficult access to the interior of the fitting; 3.- Tight space between fitting case and wall
- Highest IK rating: IK10 - 170Joules. Even during and after an act of vandalism, the light must not switch off but illuminate the area reliably
- Special Snake-Eye screws, a favourite of architects & designers in view of their aesthetic appearance. They provide a simple way to deter thieves and vandals and offer a practical solution to the problem of unauthorised relocation of items
- Gear tray replaceability: Rather than a contractor changing/replacing the whole fitting, here is an option to replace just the gear tray and leave the fitting installed, therefore saving valuable time

*Photographs, line drawings and photometric data are representative only. For specific product detail please select an individual product.*

96630885

### Material/Finish

Body: 2mm sheet steel, painted white (RAL 9016)  
 Gasket: non-ageing polyurethane foam  
 Diffuser: impact resistant (3mm thick) opal polycarbonate  
 Screws: tamper-resistant stainless steel, twin hole.

### Installation/Mounting

Suitable for ceiling or wall installation with 4 fixing points  
 Approved for indoor use or in outdoor areas, protected by a roof. For areas endangered by deliberate or accidental destruction.

# Durolight
